New book on `Ocean-Atmosphere Interactions of Gases and Particles` to be available soon

The book titled `[Ocean-Atmosphere Interactions of Gases and Particles](#)` by P.S. Liss et al. will be available soon.

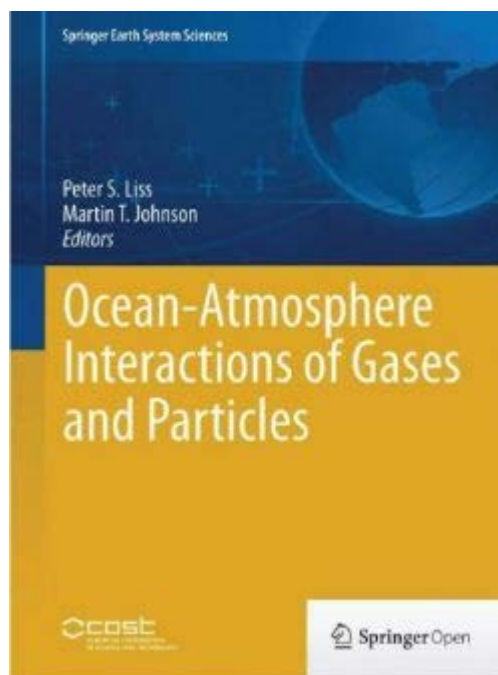

Production of this book was supported and funded by the [EU COST Action 735](#) and coordinated by [SOLAS](#).

Arguably the only book dealing with exchange of energy including heat, chemicals and biological organisms across the interface between ocean and atmosphere

First synthesis of a set of disparate topics into a coherent treatment of the exchange of matter across the sea surface

Deals with a very important topic required for an understanding of how the earth system operates

Call for Topic Session & Workshop Proposals for PICES Annual Meeting 2014

The PICES 2014 Annual Meeting (PICES-2014) will take place in South Korea in fall 2014 (exact dates and the venue will be announced soon). To develop the scientific program for the meeting, a proposal submission webpage is now open on the PICES website for topic sessions and workshops. It is also open to receive proposals for new intersessional workshops that you may want PICES to convene between annual meetings (November 2013 - September 2014). The deadline is September 7, 2013.

Detailed information about developing and submitting a proposal can be found on the [PICES website after you log in.](#)
