Open Science Conference

7th - 10th May 2012
Washington State
Cle Elum
USA

20 minute short-talks are available in the following sessions:

- Sea-ice biogeochemistry and interactions with the atmosphere
- Ocean-derived aerosols: production, evolution and impacts
- Atmospheric control of nutrient cycling and production in the surface ocean
- Air-sea gas fluxes at eastern boundary upwelling and oxygen minimum zone (OMZ) systems
- Long-lived greenhouse gases: sea-air exchange and impact

You can also lead a discussion session and present a poster. For more information about how to be involved in the OSC, please visit the '[Your contribution](#)' page on the [SOLAS OSC 2012 website](#).

Speaker abstracts are now available for confirmed keynote and short talk speakers in all [plenary sessions](#).

Conference fund 2012 applications are now being accepted from early-career scientists from developing countries and countries with economies in transition thanks to support from the [Scientific Committee on Oceanic Research](#) (SCOR). [Click here](#) to find out more and apply.

Full details about the conference venue, [programme](#) and [invited speakers](#) are available in the [2nd announcement flyer](#). If you would like

to receive printed copies to distribute please [email the IPO](#)

ABSTRACT SUBMISSION DEADLINE: 11 JANUARY 2011

Opportunities

Cruise participation

Nutrient cycling and microzooplankton grazing during the North Atlantic Spring Bloom

Notification of interest deadline: 15 December 2011. [More information](#)

Volunteers required

[PAGESOcean2k](#) require volunteers to assist in the assembling of a meta-database of marine palaeodata. For more information, please contact [Delia Oppo](#) before January 2012

ESA's Climate Change Initiative (CCI)'s proposals

The ESA CCI has been set up to exploit the archives of satellite data now available. There are 13 essential climate variables involved including aerosol, cloud, climate models, greenhouse gases, ozone, ocean colour and sea-surface temperature. ESA are looking for potential users of these datasets to guide the final products. [More information](#)
